Eemil Aspholm

Data Analyst trainee at Lassila & Tikanoja | IEM student at LUT University | Programming and data-analytics enthusiast
Lappeenranta, South Karelia, Finland

Summary

My interests and the direction of my studies are focused on data analytics, business intelligence, software development, software projects, artificial intelligence, machine learning, and other opportunities for business digitalization.

Experience

Lassila & Tikanoja

1 year 9 months

Data Analyst trainee

September 2022 - Present (4 months)

Helsinki, Uusimaa, Finland

Data Analyst trainee

May 2022 - September 2022 (5 months)

Helsinki, Uusimaa, Finland

During the internship, I worked on projects that included the following topics:

- Market share analysis
- Dynamic waste collection opportunities
- Customer contact analysis
- Smaller projects related to data analysis

Service Advisor

October 2021 - May 2022 (8 months)

Jyvaskyla, Central Finland, Finland

Service Advisor

April 2021 - October 2021 (7 months)

Jyvaskyla, Central Finland, Finland

I worked as a sales-oriented B2B-customer advisor in the customer interface. My main duties included providing assistance to B2B customers in the fields of circular economy, waste and sewer management, data protection, and other environmental products such as compact recycling solutions.

The daily tasks included contacting customers, making offers, and writing contracts into the contract management system. Besides contacting customers, the job required a lot of cooperation with the sales team and production foremen in terms of scheduling and finding the best solution to match with customers needs. In addition, I learned a lot about the company's information systems, software, tools, and data management (CRM, ERP).

Siivousliike Nyberg Oy

Construction cleaner

March 2020 - August 2020 (6 months)

Jyvaskyla, Central Finland, Finland

I was a construction cleaner at the VRP construction site, where my daily tasks consisted of assisting a carpenter and clearing construction waste. During the summer, I learned how a big construction site operates, and how sustainable development and recycling can be promoted on construction sites. Besides, I improved my organization, teamwork, and prioritizing skills.

Höyste Oy

Restaurant Worker

May 2019 - January 2020 (9 months)

Muurame, Central Finland, Finland

The job included preparation of food, serving customers, handling orders, and taking care of overall tidiness. The Job taught me a lot about customer service spirit, and teamwork under pressure.

Kotipizza Group Oyj

Restaurant Worker

August 2017 - May 2019 (1 year 10 months)

Muurame, Central Finland, Finland

A full-time/part-time restaurant worker in addition to high school. The employment taught me a lot about customer service, B2C sales, and working as a part of a small team. As my experience increased, I received more responsibilities, such as working shifts in charge of the restaurant.

Education

LUT University
